NOMAD TANZANIA

Entamanu Ngorongoro

Nomad Tanzania are the go to people for authentic, bespoke safaris with 10 camps and lodges across Northern, Western and Southern Tanzania. Their experiences are off the tourist trail. Though they offer high-end travel, the main focus is on the quality of the safari in the truest sense, experiencing the authentic, environmentally aware and wildlife loving adventure.

Entamanu Ngorongoro is the latest addition to the Nomad Tanzania family and it is the only place in the world where you can watch the sun rise over the crater, and set over the Serengeti. The camp is totally removable, yet each space has been designed with comfort in mind. The camp has been designed to provide shelter from the high-altitude sun, and warmth, against the cold with fires, wool rugs and sheepskin. The eight-room camp will add a couple more in 2017. Prices start at \$655 per person per night.

The Ngorongoro crater has one of the highest mammal concentrations in Africa but it is also the ever-changing landscapes and ancient culture that make it such a special location.

TALON AIR Joins Signature Select

Talon Air of Farmingdale, New York (FRG) has joined Signature Select as the newest location in the Signature Flight Support network and the first on Long Island. The addition of Signature Select's customer benefits to Talon Air will offer convenience and create new value for air travelers and is expected to bring more business to Republic Airport. Maria Sastre, President and Chief Operating Officer for Signature Flight Support, commented, "Talon Air has been a long-term customer with its aircraft-charter services and managed fleet of aircraft. Signature has a significant presence in the New York market, and we enthusiastically welcome Talon Air to our network." Talon Air's Signature Select affiliation creates added value for clients by way of point-to-point coordination with other Signature locations—saving time and ensuring consistent, high-touch concierge service. Founded by Adam Katz, Talon Air, headquartered at Republic Airport (KFRG), is a full-service business and private aviation provider. Its facility comprises more than 100,000 sq. ft. of hangar, executive terminal and office space. Talon's portfolio of services includes aircraft charter, management, fixed-base operations (FBO) and flight-support solutions. Talon Air also operates a FAA Part 145 Repair Station and performs maintenance repair and overhaul (MRO) on most modern aircraft—along with non-destructive testing (NDT), avionics installation and repair, interior installation and refurbishment. In addition, as part of the Talon Air Mobile Services Team, Talon Air provides aircraft-on ground (AOG) service. ■
