# Wildlife Vacations: The 10 Ultimate Trips for Animal Lovers

SARAH SCHLICHTER

## Tanzania

No wildlife lover should pass up a chance to see Africa's legendary Big Five: lions, rhinos, elephants, leopards, and Cape buffalo. In Tanzania you'll find them all plus many more, including hippos, giraffes, and zebras. The country is most famous for the Great Migration, when millions of wildebeest move en masse from the Serengeti in Tanzania to the Masai Mara in neighboring Kenya; June and July are the best months for viewing the migration in Tanzania.

**How to get there:** [Bright African Safaris](#) is one well-regarded local operator. [Nomad Tanzania](#) runs luxurious safari camps across the country. [Intrepid Travel](#) offers a number of Tanzania packages, many that also include time in Kenya.
