6. Follow the earth-shaking Wildebeest Migration

This might be one of our favorite adventure travel expeditions yet. Each year, over one million wildebeest and some hundred thousand zebras and gazelle migrate from southern Serengeti in Tanzania to Massai Mara in Kenya. No wonder this majestic annual event has been named among the seven wonders of the world in the past. And the best part? You can watch it all happen. The best way to do it? By booking a stay in Nomad's [Serengeti Safari Camp](#), a mobile camp that moves with the wildebeest migration. This is the perfect adventure for the wildlife-lover.
